

LISA MAY

RESEARCH MANAGER

PROFILE

Research scientist with a focus on project management. Advanced analytical and communication skills.

Team leader and facilitator of individual and group success.

SKILLS

Research Coordination
Team Leadership
Scientific Communication
Scientific Theory & Design
Analysis & Programming

EDUCATION

PhD in Biology/Neuroscience

University of Oregon
4/2017

BS in Biology

Minors: Chemistry & Physics
Easter Washington University
6/2007

RESEARCH EXPERIENCE

Research Fellow | 9/2010 – 6/2017

University of Oregon

- Designed & directed **5-year double-blind, randomized, crossover study**.
- Procured 2 research grants totaling \$40,000.
- **Hired, trained, and managed** 12 research assistants.

Lab Manager | 9/2016 – 6/2017

University of Oregon

- Managed staff resources across multiple studies. Negotiated and resolved staff conflicts.
- **Improved team productivity** via new weekly meeting structure.
- Implemented laboratory-wide version control.

Scientific Director | 10/2016 – present

Berkman Consultants

- Translated scientific principles into tailored business solutions.

Field Investigator | 4/2010 – 9/2010

Washington Environmental Biomonitoring Survey

- directed recruitment & data collection through independent field work.

Research Analyst | 1/2009 – 5/2010

Providence Medical Research Center

- Designed & implemented retrospective review of robotic mitral valve repair.
