More information about this job:

Overview:

Technical Project Manager II - HealthSparq

Portland, Oregon or Dallas, Texas

A **Technical Project Manager** manages work efforts from concept through close-out and supports the management of work efforts of varying complexity and technical scope.

The Technical Project Manager II is responsible for the appropriateness, quality, and timeliness of all aspects of one or more work efforts, in coordination with an agile or PRO Project Manager where applicable, managing the production of work effort estimates, developing delivery plan and schedule, establishing measures and milestones, and tracking ongoing progress, while proactively managing risks, issues, scope and human resources through the delivery life-cycle.

The Technical Project Manager II will also be responsible for Account Management responsibilities including delivering the highest possible level of service during and after implementation, managing the holistic experience of customer interactions, client education and effective issue resolution.

Responsibilities & Requirements:

- Familiarity with the Project Management Institute (PMI) Guide and the Project Management Body of Knowledge (PMBOK) including understanding of the project lifecycle.
- Demonstrated high-level technical understanding of business requirements as they pertain to Project Management principles and the project lifecycle including demonstrated excellent analytical and problem solving skills.
- Ability to manage small, less complex work efforts, demonstrated ability to work effectively with minimum supervision and demonstrated ability to work with business sponsors and partners to identify and implement solutions including demonstrated ability to motivate teams to achieve defined deliverables.
- Demonstrated ability to identify problems, mediate issues, develop solutions and implement a course of action.
- Demonstrated success at meeting budget, timelines, and requirement targets and managing variances.
- Demonstrated experience with Microsoft Office suite of tools and automated project management software.
- Demonstrated strong interpersonal and communication skills including writing, presenting, listening, and facilitating and including demonstrated experience presenting to work effort participants, stakeholders and all levels of management.
- Ability to identify milestones/deliverable delays and critical resource allocation issues from the work breakdown schedule.
- Demonstrated understanding of Agile delivery methodologies
- For infrastructure teams, demonstrated understanding of ITIL Framework Governance and guidelines.

In addition, the Technical Project Manager II would have:

- Ability to manage work efforts of medium size and moderate complexity.
- Demonstrated functional competencies including: Budgeting, Change Management, Client Management, Methodology Approach and Business Life Cycle, Mission/Vision/Strategy, Planning and Organization, Risk Management, Agile delivery methodologies.

Normally to be proficient in the competencies listed above:

- The **Technical Project Manager II** would have a Bachelor's Degree in Business or related field and a minimum five years progressive project management experience to include managing multiple projects concurrently or an equivalent combination of education and experience.

About Us:

HealthSparq employees are part of the larger Cambia family of companies, which seeks to drive innovative health solutions. We offer a competitive salary and a generous benefits package. We are an equal opportunity employer dedicated to workforce diversity and a drug and tobacco-free workplace. All qualified applicants will receive consideration for employment without regard to race, color, national origin, religion, age, sex, sexual orientation, gender identity, disability, protected veteran status or any other status protected by law. A drug screen and background check is required.

HealthSparq is all about helping people make smarter health care choices. How do we do it? By offering the most relevant, personalized and timely data possible and offering it to consumers when they need it. With over 70 health plan clients that reach over 72 million people, HealthSparq is uniquely positioned to help people make better sense of their health care.

Cambia Health Solutions is a nonprofit total health solutions company with community roots dating back to 1917. We advocate for transforming the health care system by making health care more affordable and accessible, increasing consumers' engagement in their health care decisions, and offering a diverse range of

products and services that promote the health and wellbeing of our members. Cambia's portfolio of companies spans health care information technology and software development; retail health care; health insurance plans that carry the Blue Cross and Blue Shield brands; pharmacy benefit management; life, disability, dental, vision and other lines of protection; alternative solutions to health care access and free-standing health and wellness solutions.
